

Dear League Representative,

I hope this message finds you well. The Champions Hockey League (CHL) is committed to promoting sustainability within the sport of hockey and actively seeks opportunities to collaborate with other leagues and organisations to enhance our collective impact. As part of our ongoing sustainability efforts, we are reaching out to inquire about your league's sustainability initiatives and explore potential areas of collaboration.

We kindly request your input on the following questions:

**1. Organizational embedding**

- Kindly advise on if and how sustainability is embedded in your league's organisation.
- Do you have a head of responsibility?
- Is sustainability part of a specific department?
- Since when is sustainability a part of your organisation?

**2. Sustainability Initiatives:**

- Could you provide an overview of any sustainability initiatives that your league has implemented or is currently planning to implement? Please include details on programs, policies, and actions related to sustainability. This can be either environmental, social or economic initiatives.

**3. Environmental Practices:**

- Are there specific environmental practices or measures in place within your league, such as energy-efficient technologies, waste reduction programs, or sustainable transportation initiatives?

**4. Social Responsibility:**

- Does your league engage in any community or social responsibility projects? This may include youth development programs, educational initiatives, or support for charitable causes.

**5. Diversity and Inclusion:**

- How does your league promote diversity and inclusion within the sport of hockey? Are there programs or efforts to ensure that hockey is accessible to individuals of all backgrounds and abilities, including financial abilities?

**6. Partnerships and Collaboration:**

- Have you partnered with other organisations, charities, or businesses to support sustainability or social responsibility efforts? If so, please provide examples.
- Do you have dedicated sustainability partnerships or sponsors?

**7. Future Collaboration:**

- Are there potential areas of collaboration between your league and the CHL in the realm of sustainability, social responsibility, or environmental conservation that you would be interested in exploring further?

**8. Sustainability Reporting:**

- Does your league publish a sustainability report or annual summary of your sustainability initiatives? If available, please share the latest report or relevant documents.

**9. Contact Information:**

- Please provide the contact information for the appropriate person or department within your league whom we can reach out to for potential collaboration discussions.
- This information is relevant even if you do not have a head of sustainability or similar in your organisation.

We appreciate your time and input on these questions. By sharing information about your sustainability efforts, we hope to identify opportunities for mutual support and collaboration to further promote sustainability within the hockey community.

Thank you for your dedication to the sport of hockey and your commitment to sustainability. We look forward to hearing from you and exploring potential areas of collaboration.
